The New ASX

The electrified hybrid compact SUV

Re-Connect with ASX

Meet the New ASX: An electrified hybrid compact SUV with versatile powertrains, advanced connectivity, premium safety features, and a 5-year warranty. Redefine your driving experience.

Design

01

Design details for urban life

Up the kerb appeal with stylish exterior details. Signature looks are at the core of our design strategy. And the New ASX is the embodiment of this ethos. The pronounced grille gives it a sporty feel which emphasises its readiness to take on the world.

Modern and dynamic design

The 2025 Mitsubishi ASX turns heads with its dynamic, robust front and striking rear design. The muscular design and versatile cargo area gives this compact SUV a go-anywhere capability.

Protection meets performance

The front of the ASX doesn't just have strong compact SUV looks, it also incorporates the DYNAMIC SHIELD. This stand-out design creates a feeling of protection and performance.

See more of the road ahead

The 2025 ASX has more efficient, longer-lasting LED headlights which produce a brighter, warmer light. It's also less dazzling for other road users. Greater visibility for cars behind Curved LED tail lamps give the ASX a sporty feel and although minimal in size, they offer better visibility.

Interior

02

▲ Instyle

▲ Intense

▲ Inform

Engineered with comfort in mind

With generous head and legroom, touches of luxury and all the technology you need, the ASX cabin is ready for whatever life holds. The seats have been designed for maximum support. They're available in a hardwearing fabric with detailed stitching, or for an added touch of luxury, choose a leather finish.

Room for five and their luggage

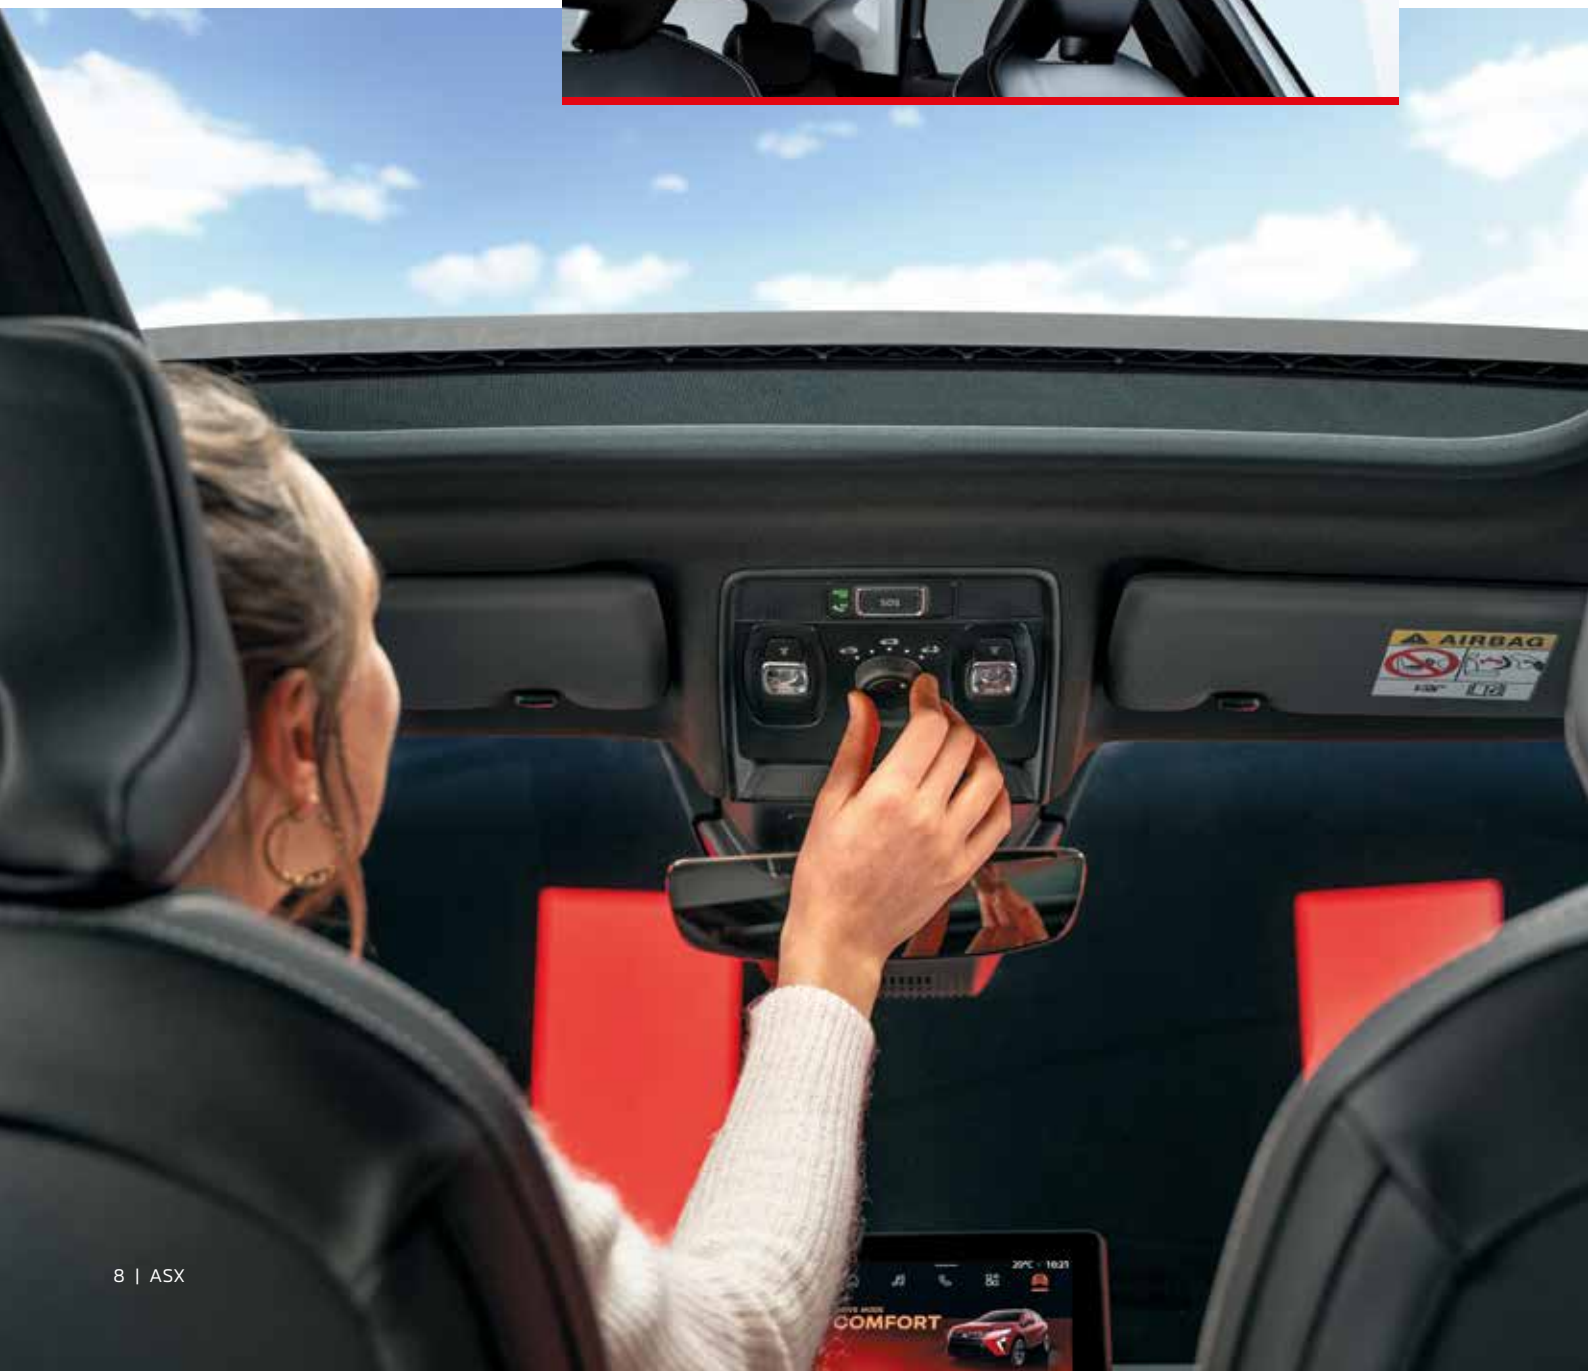

There's enough space in the New ASX for five people to ride in comfort. It has a wide tailgate and low cargo floor, which makes loading and unloading easy, and even with five passengers on board, you've still got 358 litres of cargo space.

The rear bench seat offers room for three in the back. It's got an easy release button, which allows you to fold it forward to transport bigger items. The rear seat can also be folded in a 60:40 split for longer items.

Filling the cabin with light

A panoramic sunroof allows more sunlight to fill the cabin, creating a more relaxing interior space. It has 4 settings to choose from – adjust it to your preference.

Colors to match your mood

To create a more relaxing interior, not just for the driver, but for passengers too, the cabin has subtle touches to help you unwind. For example, you can change the ambient lighting from a range of colours to suit your mood.

Personalise the graphics

Directly ahead of the driver is a full-color multi-information display. It houses the speed and tach dials, gives up-to-date information, drive mode status and more. You can personalize it, so it's just how you like it.

More storage spaces

The Air Console offers extra storage space between the front seats. In the upper part, which 'floats' above the lower one, is the gear selector and storage tray. In the lower part is the wireless smartphone charger and further storage.

Let's meet all features

5-year warranty

Not only do you have peace of mind from a full 5-year warranty. You also get an 8-year/160,000 km battery capacity warranty and 5 years of roadside assistance (MAP).

Modern and Dynamic

The front of the ASX doesn't just have strong compact SUV looks, it also incorporates the DYNAMIC SHIELD. This stand-out design creates a feeling of protection and performance.

Electrified Powertrains

From petrol engines and mild hybrids to a self-charging hybrid (HEV), there's a Mitsubishi ASX to suit you.

Stay connected

The New ASX is a giant leap forward in connectivity. It has Google built-in, which gives you access to Google Maps™, Google Assistant™ and Google Play™ and My Mitsubishi Motors app.

Modern Design

The 2025 Mitsubishi ASX turns heads with its dynamic, robust front and striking rear design. The muscular design and versatile cargo area gives this compact SUV a go-anywhere capability.

Drive Modes

Choose from 4 drive modes: COMFORT, ECO, SPORT and PERSO. For further personalisation, change the steering mode, set the ambient lighting and change the digital driver display on the instrument panel.

Advanced Safety Features

Compact in size, big in safety. The ASX has over 20 latest and most modern safety and convenience systems on board, such as the semi-autonomous MI-PILOT.

Technology

03

An exciting rang of powertrain

Choose a petrol engine with economical fuel consumption or opt for a mild hybrid version with the subsequent eco-friendly benefits.

	Petrol	Mild Hybrid Manual	Mild Hybrid Automatic	Hybrid Electric Vehicle (HEV)	LPG MT
Features	6-speed manual gearbox.	6-speed manual gearbox.	6-speed dual clutch transmission.	Automatic transmission.	6-speed manual transmission.
	1.0L turbocharged engine.	1.3L turbocharged engine.	1.3L turbocharged engine.	1.6L engine and electric motor.	1.0L turbo engine.
Benefits	This compact, turbocharged engine is agile, economical and ideal for modern driving. Low CO ₂ emissions.	Small electric motor assists for accelerating and stop-start traffic. Creates lower fuel consumption, lower emissions.	Small electric motor assists for accelerating and stop-start traffic. Creates lower fuel consumption, lower emissions. For those who prefer an automatic transmission.	Self-charges as you drive. Electric motor powers the vehicle at low speeds – up to 80% of driving in the city will be EV driving. More economical than mild hybrids and less CO ₂ emissions – up to 40% of fuel saving. Also, quieter and more responsive.	LPG or liquified petroleum gas produces less CO ₂ emissions and is considerably cheaper than petrol and quieter too. This model is dual fuel, so it can switch between petrol and LPG.

Harman Kardon Audio

The 2025 ASX features a Harman Kardon® Premium Audio system with 9 speakers – it even has one in the trunk, coupled to a subwoofer. The result is wonderfully clear bass notes, a crisp mid-range and smooth treble notes.

Wireless charging

A wireless charging mat is another thoughtful touch. Just place your smartphone on the charging area and charging begins. It supports all mobile devices with Qi and MagSafe® certification.

State-of-the-art connectivity

We've introduced several touches to keep you connected on every journey.

*Stop & Go and MI-PILOT only available on automatic transmission (including HEV)

Safety

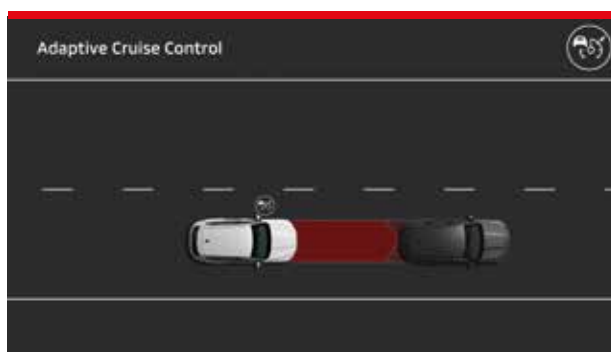

MI-Pilot*

This is Mitsubishi's semi-autonomous system. It combines Adaptive Cruise Control [ACC], which maintains your distance from the vehicle in front, with Lane Centering Assist [LCA], which keeps you centred in your lane, for extra comfort and safety on long trips.

Adaptive Cruise Control [ACC] with Stop & Go*

This driver-assist technology helps you to stick to a set speed limit. If there's a change in the legal speed limit, you'll get a visual alert. It also keeps you a safe distance from the vehicle in front, whilst still maintaining your speed. If necessary, it will decrease the vehicle's speed and bring it to a full stop and then follow the car in front once it accelerates again.

Park Assist

Wouldn't it be great to sit back and let your car park itself? That's exactly what the Park Assist system does. Using 12 sensors around the ASX, the system helps you park by controlling the steering wheel. You just have to operate the pedal and gear. It also works in parallel and angled parking spaces.

Occupant Safe Exit Assist [OSEA]

Using two rear side radars, this system tracks vehicles approaching from behind. If something's coming up, and you're about to step out of the vehicle, you get a warning light in the outside mirror. If the oncoming vehicle is getting really close, you get a warning light in the outside mirror, a blinking ambient light in the door and a pictogram in the information cluster.

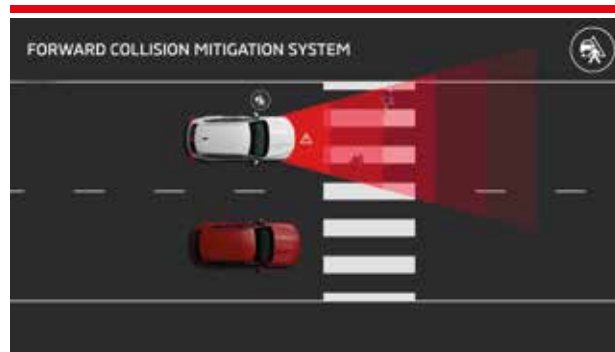

Emergency lane keeping assist [ELKA]

Using cameras and radar, the ELKA system monitors for three things: vehicles coming in the opposite direction where a collision is likely, vehicles already overtaking you when you're about to pull out and the likelihood that your vehicle will leave the road. In any of these situations, the ELKA system will respond with corrective steering action.

Forward Collision Mitigation System [FCM]

This driver-assist system judges the distance to the vehicle, pedestrian or motorcyclist ahead (stationary or moving). If there's any risk of collision, and the driver brakes but the risk remains, the system will sound a warning and implement additional braking. If there's insufficient or no braking by the driver, the system automatically slows or brings your ASX to a stop.

Rear Cross Traffic Alert [RCTA]

RCTA uses radar technology to detect whether there's any traffic or pedestrians approaching from behind during parking. If there is, you first get a visual alert, and then a visual and audible alert. It's particularly useful when reversing in low visibility.

*Stop & Go and MI-PILOT only available on automatic transmission (including HEV)

Connectivity

06

The New ASX is a giant leap forward in connectivity. It has Google built-in, which gives you access to Google Maps™, Google Assistant™ and Google Play™ and My Mitsubishi Motors app puts more remote operations right at your fingertips.

Google Play™

All your favourite apps on screen

Getting your favourite apps up on the ASX's infotainment screen is easy with Google Play™. All you need is a Google account. Then download apps like Spotify from the online store to your ASX.

Navigation

Accurate, up-to-date Google MAPS™

Introducing the New ASX with Google built-in. It offers simple and easy access to Google Maps™ to help you navigate to your destination easily and reliably with real-time traffic information.

Voice Commands

Life's easy with Google Assistant™

Wouldn't it be great to be able to tell your ASX what to do or where to go, so you can just focus on the road? That's exactly what Google Assistant™ is for. Just give a voice command and it's done for you.

My Mitsubishi Motors app

Get greater control with our app

Use My Mitsubishi Motors app to find key information and perform useful day-to-day functions.

My car finder

Find your ASX easily in a busy parking lot

In a crowded city or parking lot, it can be tricky to remember exactly where you parked your vehicle. This app function makes it easy.

Vehicle Mileage

How many miles have I driven?

If you want to know your mileage, you don't have to return to your vehicle – the app will tell you.

Fuel level

Know about fuel stops before you start

Want to know if you're going to need to stop and refuel? The app will tell you before you even start your journey.

Emergency assistance

Help is one tap away

By tapping a button in the help section you can summon roadside assistance. No more searching for a number in an emergency.

Smart lock

Get an alert if your ASX is unlocked

You'll get an alert through the app if you've forgotten to lock your vehicle.

Send destination to car

Plan your route ahead

This is really handy – you can plan a route in the app beforehand from wherever location you're in and then send the information to the vehicle.

Personalisation

Personalise the driving experience

The SDA is the infotainment screen in the centre of the car's dashboard. It allows you to personalise many of the ASX's settings. Choose from 4 drive modes: COMFORT, ECO, SPORT and PERSO. For further personalisation, change the steering mode, set the ambient lighting and change the digital driver display on the instrument panel.

Personalise your vehicle with colour

The ASX is available in a striking range of five metallic colours. To stamp your own mark, choose Sunrise Red finish with Onyx Black roof. Or staying with the 2-tone theme, opt for Crystal White finish with an Onyx Black roof.

▼ Crystal White

▼ Onyx Black

▼ Royal Blue

▼ Steel Grey

▼ Sunrise Red

Make it yours, and yours only

Each Mitsubishi Motors Genuine Accessory is crafted with the same passion and expertise that keep every Mitsubishi safe, durable and performing at the highest level. Their quality and design will match and enhance the feel, capability and look of your vehicle, whether you choose distinctive styling options, extra protection or enhanced comfort. Like the new ASX, genuine accessories come with a 5 year warranty.

▲ **Modular boot protection**
Easy installation.

▲ **Alloy wheel (17" or 18")**
Multiple designs.
Also available with winter tyres.

▲ **Roof box**
Multifunctional storage.
Size: 380 / 480 / 630 litre

▲ **Tailgate garnish**
Black or Silver design.

▲ **Wireless charger**
Induction charging for smartphones.

▲ **Towing solutions**
Fixed, detachable, retractable.

▲ **Entry guard**
Multiple designs available.
Also available with illumination

▲ **Bike carriers**
Up to 3 bikes.
Multiple models available.

▲ **Side steps**
Multiple designs.
Stylish and functional.

Genuine accessories

▲ **Side wind deflectors**
Front windows only.

▲ **Trunk tray**

▲ **Mudguards**
For front and rear.

▲ **Textile mat sets**
Comfort or Elegance.
